C-CHANNEL

MIRALIS

THE ART OF THE KITCHEN

**THOSE WHO
APPRECIATE
CLEAN LINES WILL
DEFINITELY FALL
IN LOVE WITH
THIS DESIGN**

These handle-free cabinets open by simply placing your fingers in the hidden aluminum 'C' edges of the doors and drawers.

For an ultra-contemporary, intuitive design, opt for C-Channel.

IMPORTANT

Start with the C-Channel kitchen and everything else will follow. Cabinets and hardware are specific to this model and only slab doors can be used. The following is a guide to help you select and create a handleless C-Channel kitchen.
<https://youtu.be/47u10EBf0Gc>

Note: C-Channel aluminum bars must be attached to the cabinets, though not with wall cabinets. Your installer will have to cut the aluminum bar and then attach it to the cabinet.

TABLE OF CONTENTS

BASE

BF-CC	Base full height door	12

NOTE

All prices listed in this brochure are in addition to the basic unit price.

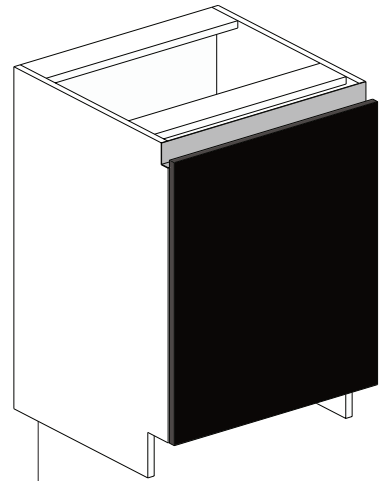

BASE DOORS

BF-CC
BASE
FULL HEIGHT DOOR
C-CHANNEL

- Available with 1 or 2 doors.

+ \$290/cabinet

BS_F-CC
BASE SINK
FULL HEIGHT DOOR
C-CHANNEL

- The front rail can be removed to allow space for a large sink.

+ \$290/cabinet

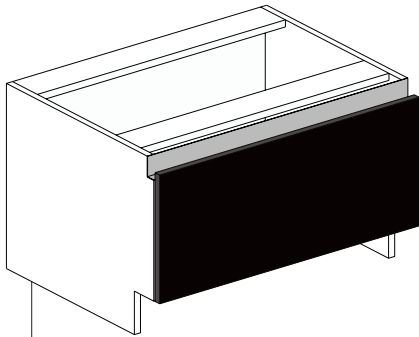

NOTE

To help you prepare your order and reduce errors, **please send us a complete floor plan with every C-Channel order.**

Miralis will go over the design and determine the hardware required.

The price of hardware is already included in the price of each cabinet.

BASE DRAWERS

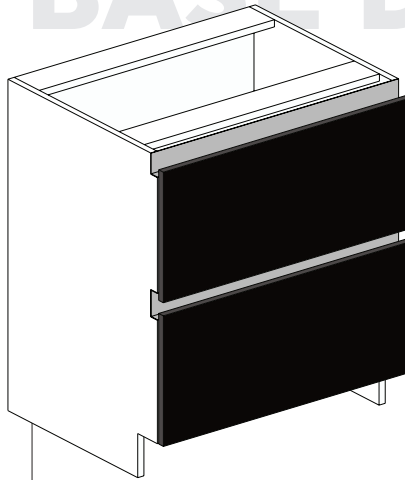

B1D-CC

BASE
1 DRAWER
C-CHANNEL

- Increase storage space by adding a roll-out shelf above the drawer.

+ \$290/cabinet

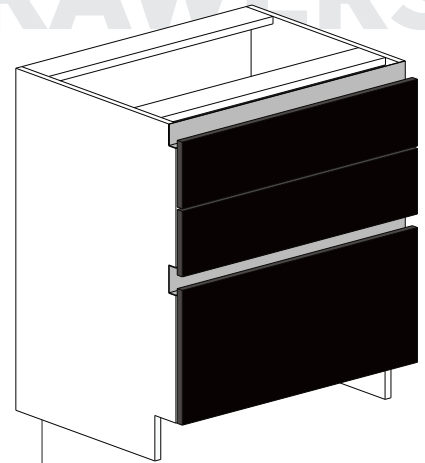

B2D-CC

BASE
2 DRAWER
C-CHANNEL

- The two drawer fronts are the same height.
- Increase storage space by adding a roll-out shelf above each drawer.

+ \$290/cabinet

B3D-CC

BASE
3 DRAWER
C-CHANNEL

- The two upper-drawer fronts are the same height.
- The two upper-drawer fronts are the same height as the bottom-drawer front.
- Increase storage space by adding a roll-out shelf above the lower drawer.

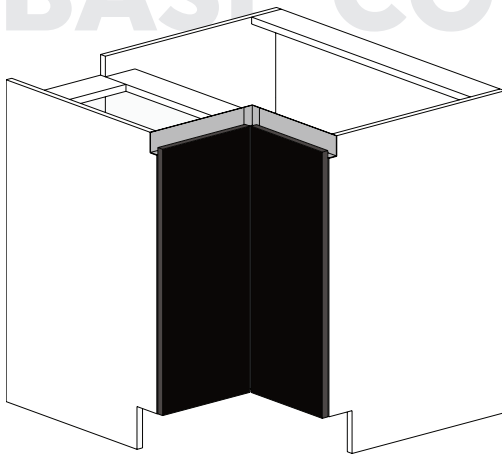

+ \$290/cabinet

IMPORTANT

- The C-Channel is **placed in the upper or the middle of the unit.**
- There is **always** a C-Channel at the top of a base cabinet.
- Access space between fronts is **1 3/8"**.
- **Concealed dishwasher*?**
It must be set back 2 1/4" under the counter.

* One of the recommended models is the Miele G 4970 SCVi Futura Classic Series.

BASE CORNERS

BC-CC

BASE CORNER C-CHANNEL

+ \$290/cabinet

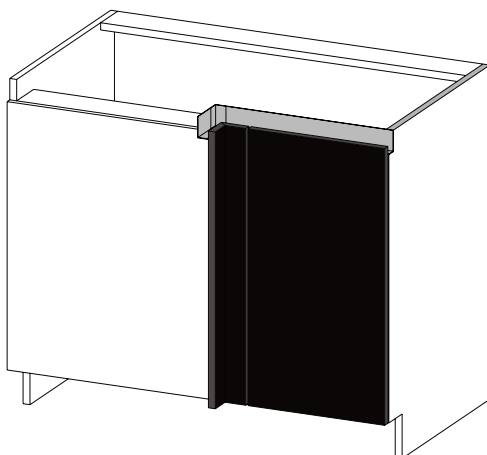

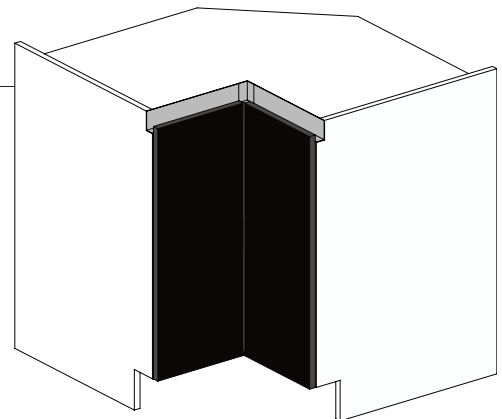

- A Lazy Susan can be added for easy access to the cabinet interior.
- This cabinet is shipped in two sections.

BBC-CC

BASE BACK CORNER C-CHANNEL

+ \$290/cabinet

- A Lazy Susan can be added for easy access to the cabinet interior.

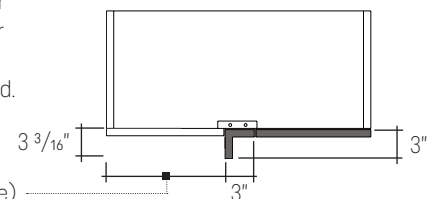

BBC_F-CC

BASE BLIND CORNER C-CHANNEL

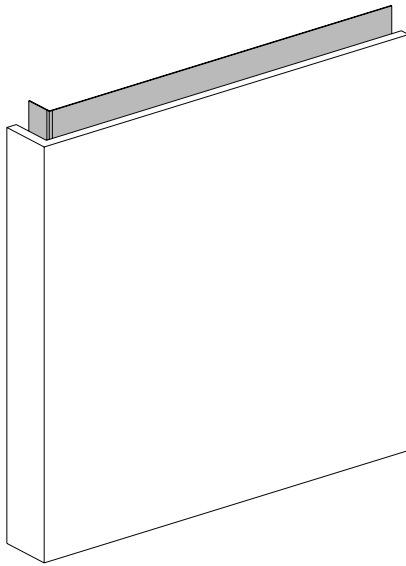

+ \$290/cabinet
+ \$200/filler

- The default width of the blind corner panel is equal to the depth of the cabinet.
- For a perfect finish, a 3"x 3" corner filler is installed between the door and the blind corner panel.
- The blind corner comes unfinished.

- Unlike certain door models, the filler does not come with an aluminum T-Edge.

Width of the blind corner (variable)

BBFL-CC

BASE BOX FILLER TYPE L C-CHANNEL

+ \$290/cabinet

- Designed for the C-Channel to continue around the cabinet side.
- All box fillers are 3" thick.
- The box filler is made of the same material as the doors.
- Unlike certain door models, it does not come with an aluminum T-Edge.

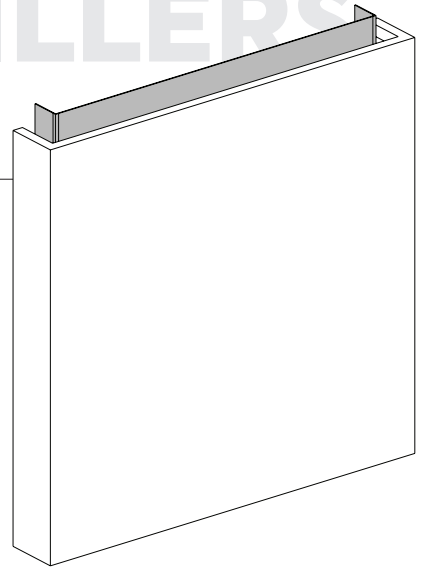

BOX FILLERS

BBFC-CC

BASE BOX FILLER TYPE C C-CHANNEL

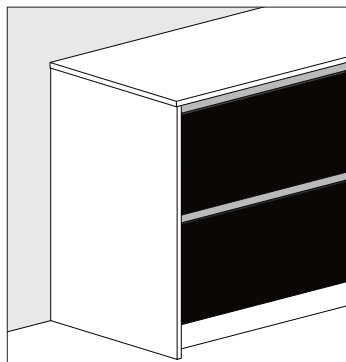

+ \$290/cabinet

- Designed for the C-Channel to continue around the cabinet side and back.
- All box fillers are 3" thick.
- The box filler is made of the same material as the doors you order.
- Unlike certain door models, it does not come with an aluminum T-Edge.

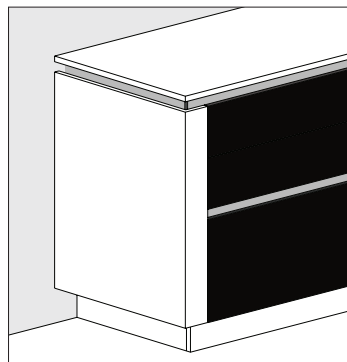

IMPORTANT

There are two options for the side finishes:

Full-height finishing panel
(FP22-2S)

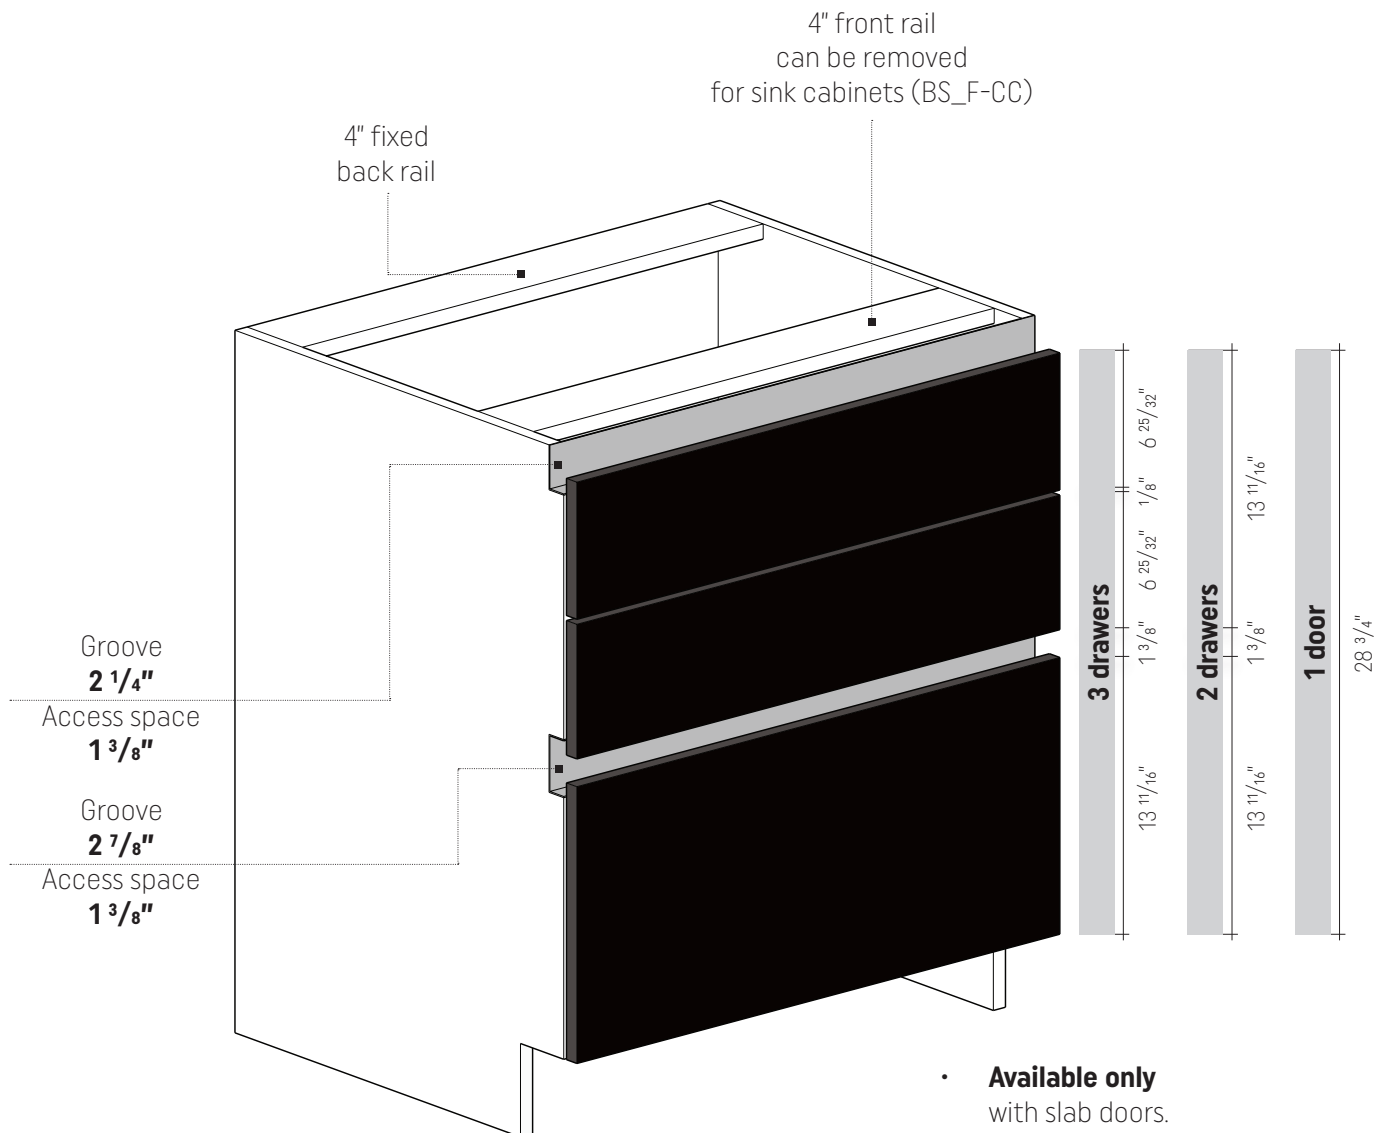

Box filler with
C-Channel (BBFL-CC)

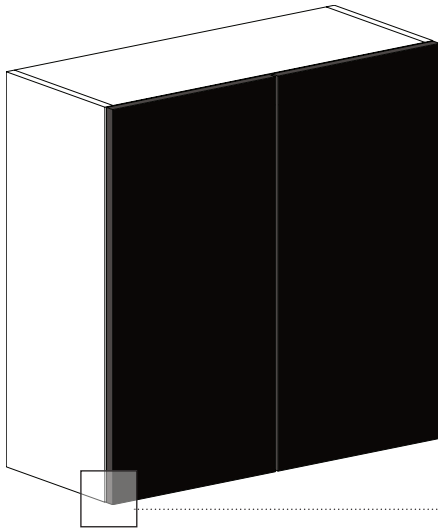

SPECIFICATIONS

BASE CABINETS

SPECIFICATIONS

- **Available only**
with slab doors.
- Counter Type: **Not available**
for bullnose countertops

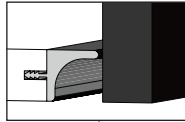

W-CC

IMPORTANT

- C-Channels for wall cabinets are **installed by the manufacturer.**
- Only available in aluminum clear anodize.
- The C-Channel **is not visible** when the doors are closed.

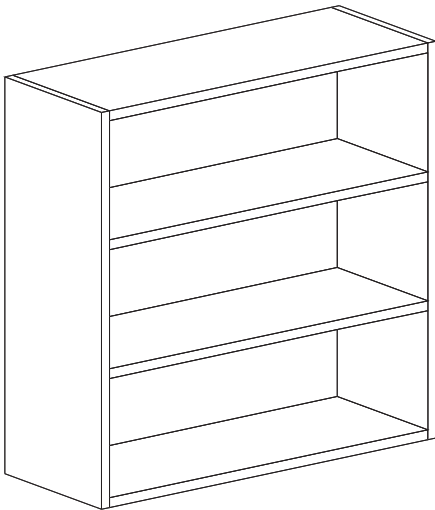

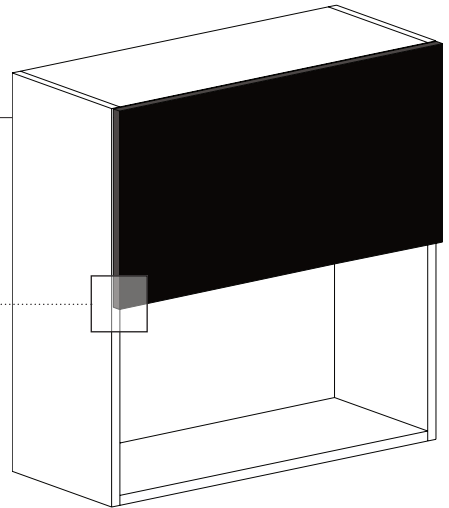

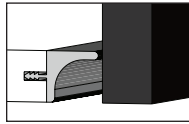

WALL CABINETS

WOSDT-CC

WALL OPEN DOOR ON TOP C-CHANNEL

+ \$250/cabinet

- To open the door, grip under the cabinet.
- The interior of the unit comes finished.
- Microwave panel cannot be added to this unit.

WOS

WALL OPEN SHELVES

+ \$0/cabinet

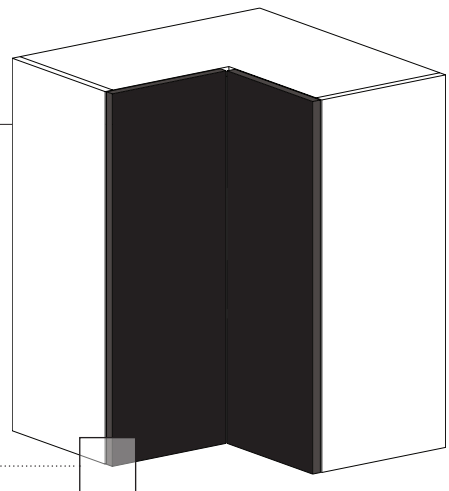

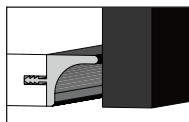

- The inside and bottom of the unit comes finished.

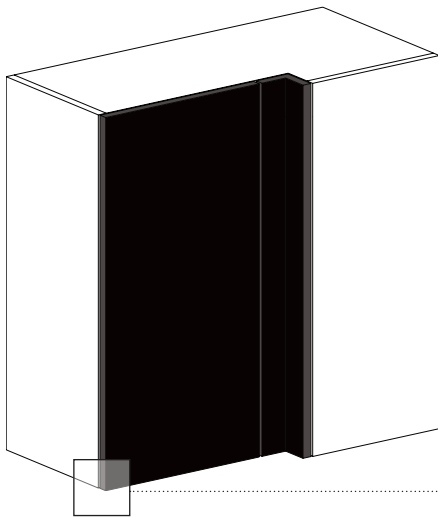

WC-CC

WALL CORNER C-CHANNEL

+ \$250/cabinet

- To open the door, grip under the cabinet.

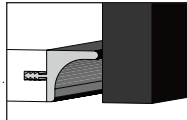

WBC-CC

WALL BLIND CORNER C-CHANNEL

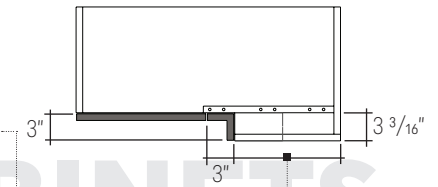

+ \$250/cabinet
+ \$200/filler

- To open the door, grip under the cabinet.
- The default width of the blind corner panel is equal to the depth of the cabinet.

- For a perfect finish, a 3" x 3" corner filler is installed between the door and the blind corner panel.
- Unlike certain door models, it does not come with an aluminum T-Edge.

Width of the blind corner (variable)

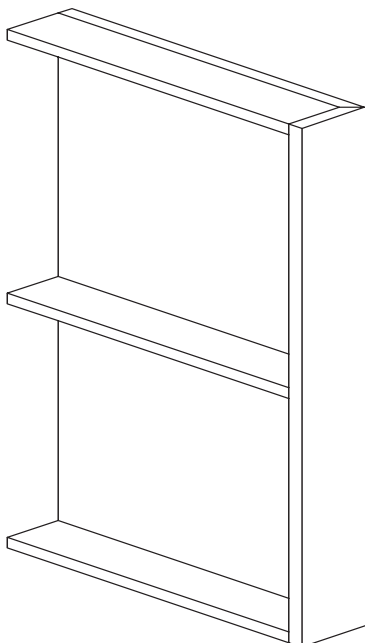

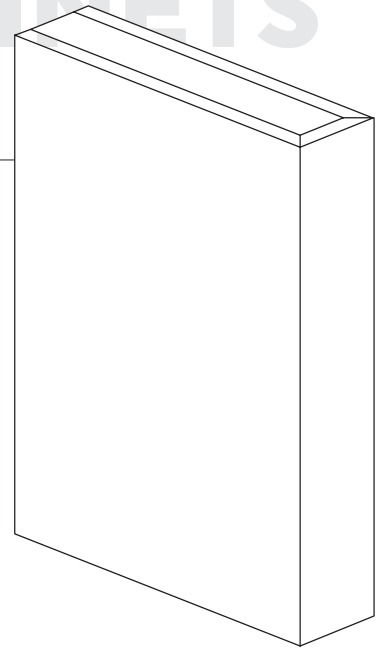

WBFU

WALL BOX FILLER TYPE U

+ \$0/cabinet

- Both sides, the front, the top and bottom come finished.
- Specify the type of filler required.

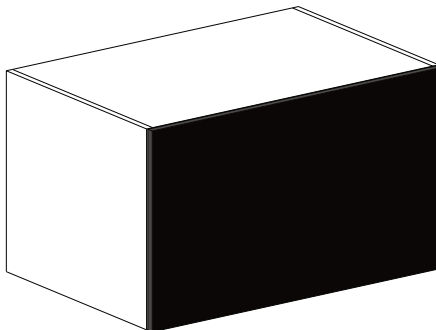

WBFL

WALL BOX FILLER TYPE L

+ \$0/cabinet

- The side, the front, the top and bottom come finished.
- Specify the type of filler required.

WALL CABINETS

W-FR

WALL FRIDGE

+ \$50/cabinet

- Use above refrigerator.
- Fridge Wall units are only available 1-door wide.
- Indicate the side(s) with the vertical C-Channel. The cabinet door will be extended to allow the fridge door to be opened.

- See page 21 for more complete specifications.
- Presented with AVENTOS-HK. (*OR37 Organize Brochure*)

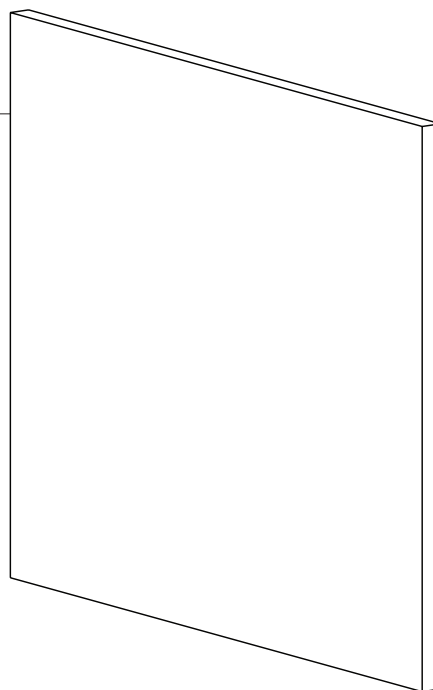

FP22-FR

FRIDGE PANNEL

+ \$0/piece

- Use when a vertical C-Channel is installed next to a refrigerator.
- A recess at the front is automatically calculated to house the vertical C-Channel.
- The price varies according to the type of cabinet construction.
- For a $\frac{5}{8}$ " construction, the panel will be $\frac{3}{4}$ " thick with no additional charges.

- Available unfinished (FP22-FR) or finished on one side (FP22-FR-1S).
- See page 21 for more complete specifications.

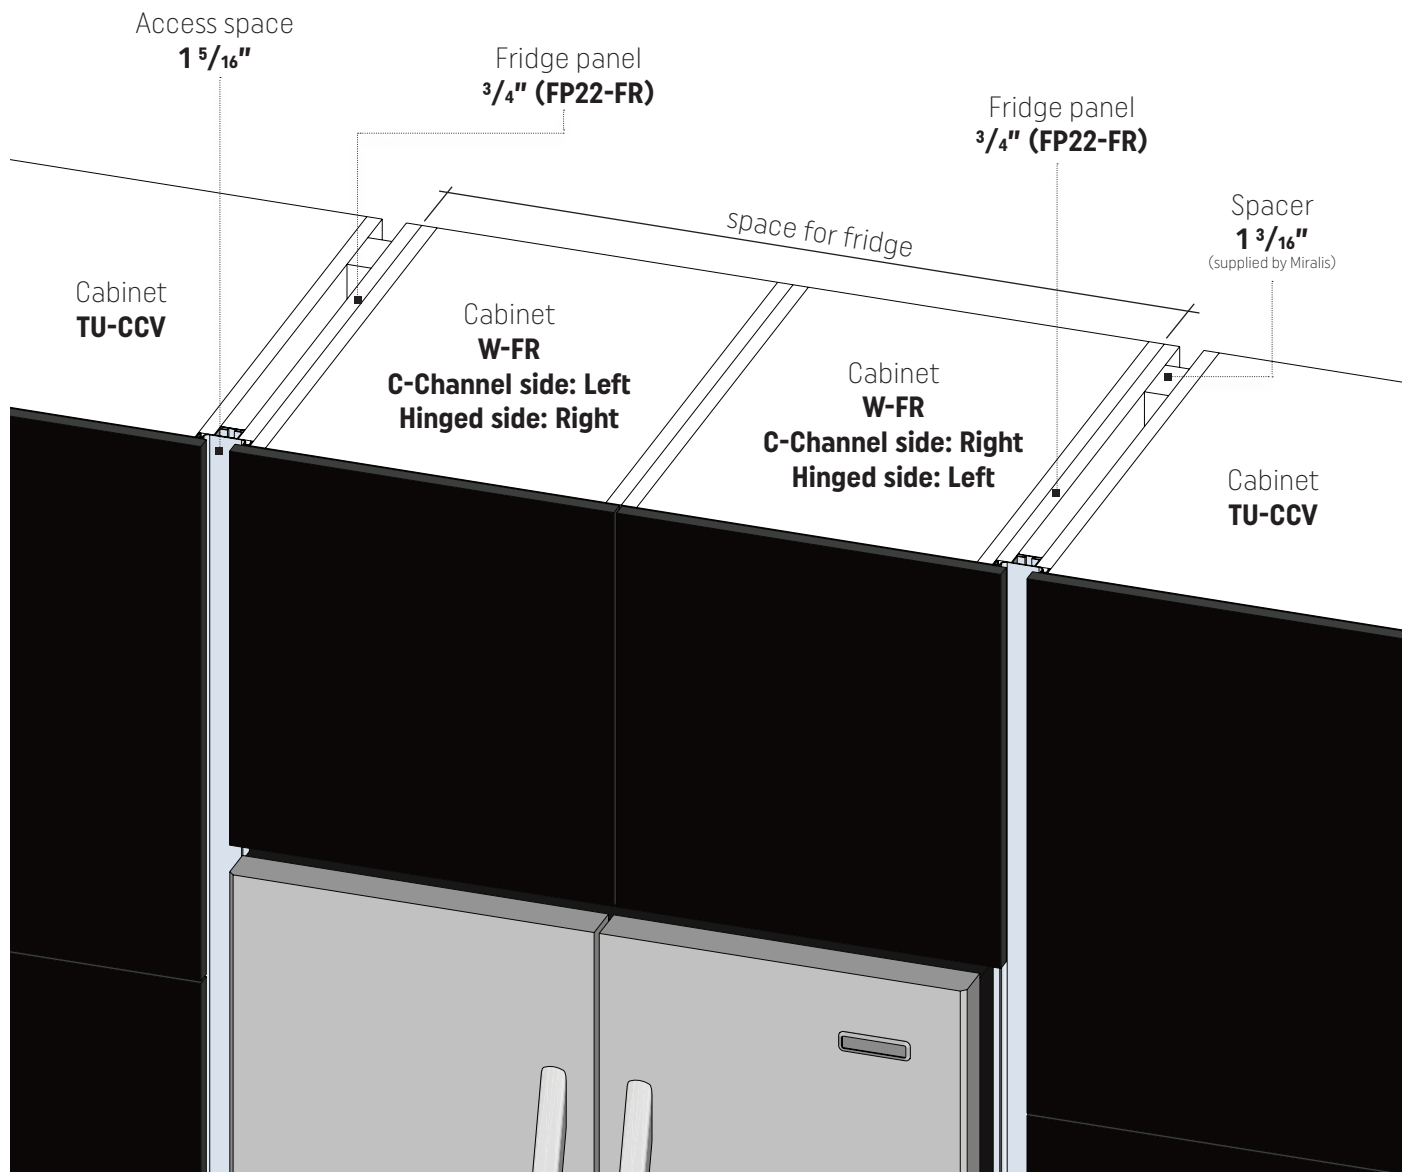

SPECIFICATIONS

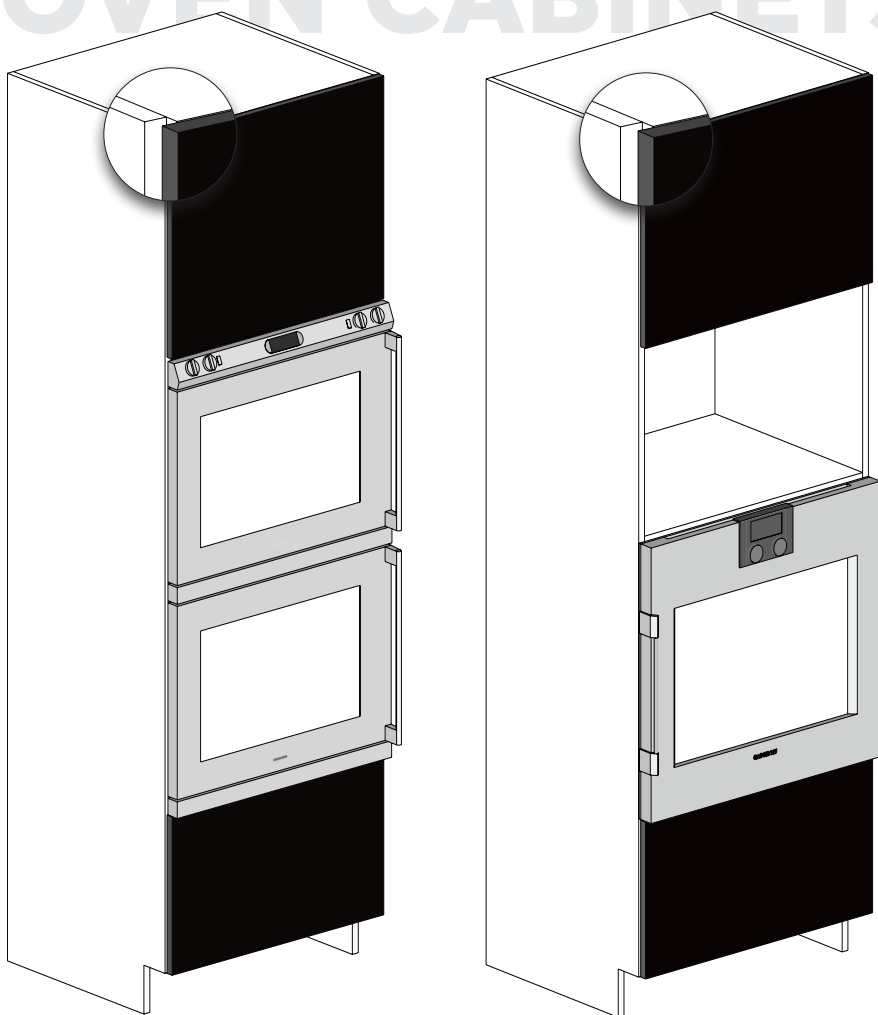

REFRIGERATOR SPECIFICATIONS

- When a vertical C-Channel is installed next to a refrigerator, a full height fridge panel (FP22-FR) must be used. A recess at the front is automatically calculated for the vertical C-Channel.
- Fridge panels (FP22-FR) are always $\frac{3}{4}$ " thick.
- The width of the unit placed above the refrigerator will dictate the space remaining for the fridge.
- Use a Fridge Wall unit (W-FR) above the refrigerator.
- The Fridge Wall unit (W-FR) is only available one-door wide. The door can be opened to the left, the right or upwards, depending on the mechanism chosen.
- The door of the Wall Fridge (W-FR) will need to have a $\frac{3}{4}$ " extension. That would allow it to fit over the C-Channel.
- For a completely concealed refrigerator, the width of the door is calculated as follows:

$$\text{Door width} = \text{Width of space} - \frac{1}{8}" + (\frac{3}{4}" \times \text{number of C-Channels})$$

OVEN CABINETS

TDO1DDT-CCV

**TALL DOUBLE
OVEN 1 DRAWER
TOP DOOR
C-CHANNEL
VERTICAL**

- Please indicate the side(s) on which the vertical C-Channel will be installed.

+ \$330/cabinet

TOM1DDT-CCV

**TALL OVEN
MICROWAVE
1 DRAWER
C-CHANNEL
VERTICAL**

- Please indicate the side(s) on which the vertical C-Channel will be installed.
- The interior of the cabinet comes finished.

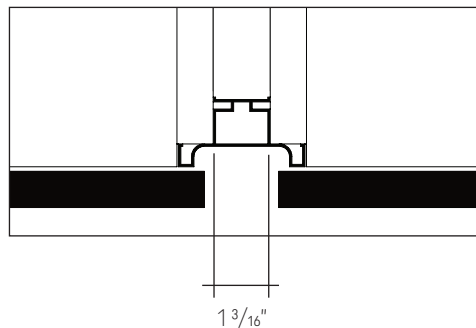

+ \$330/cabinet

IMPORTANT

- Sides with vertical C-Channels are **always manufactured with $\frac{3}{4}$ " thick material.**
Important if you need to calculate the interior space of an oven cabinet.
- There must be **$1\frac{3}{16}$ " allowed between units** for each vertical C-Channel.
- Vertical C-Channels are available with a **simple** or **double grip**:

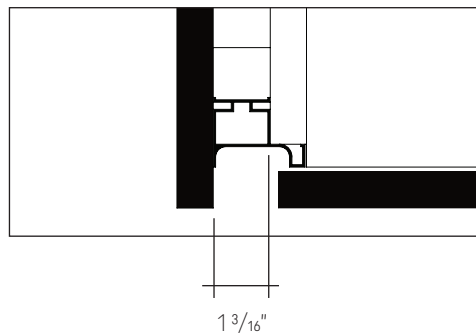

DOUBLE GRIP

Used between two cabinets.

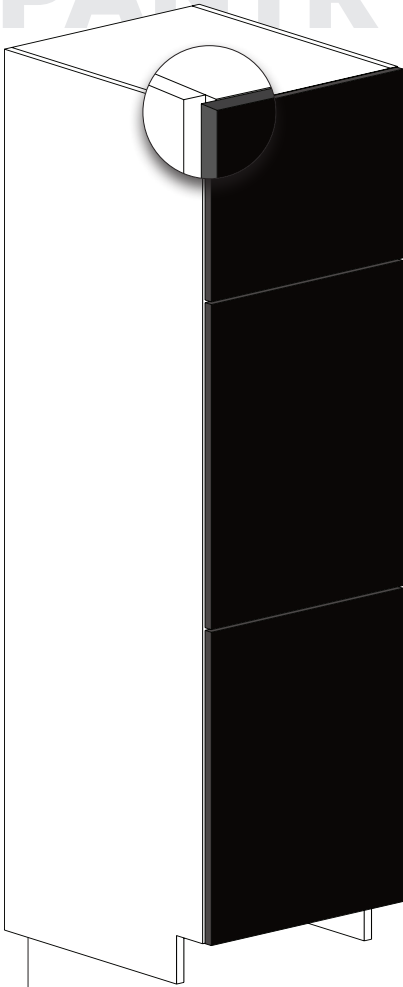

SIMPLE GRIP

Used at the ends.

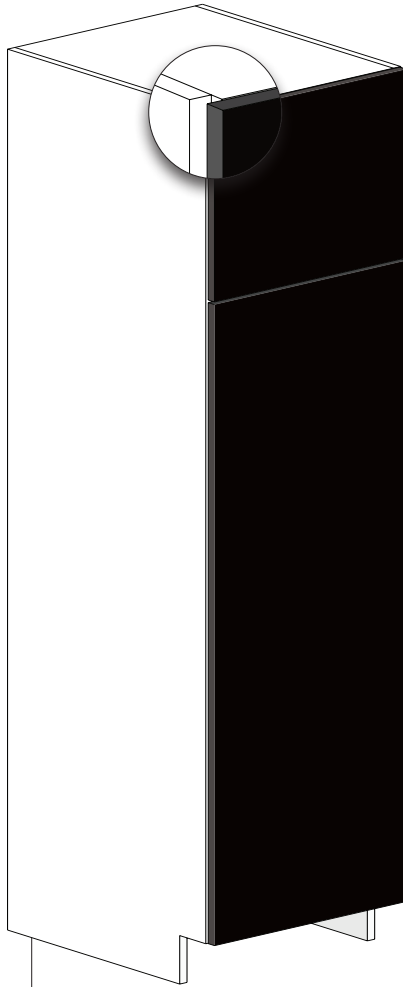

- Tall and oven cabinets are **only available in a one-door width.**

TU-CCV TALL UTILITY C-CHANNEL VERTICAL

- Please indicate the side(s) on which the vertical C-Channel will be installed.

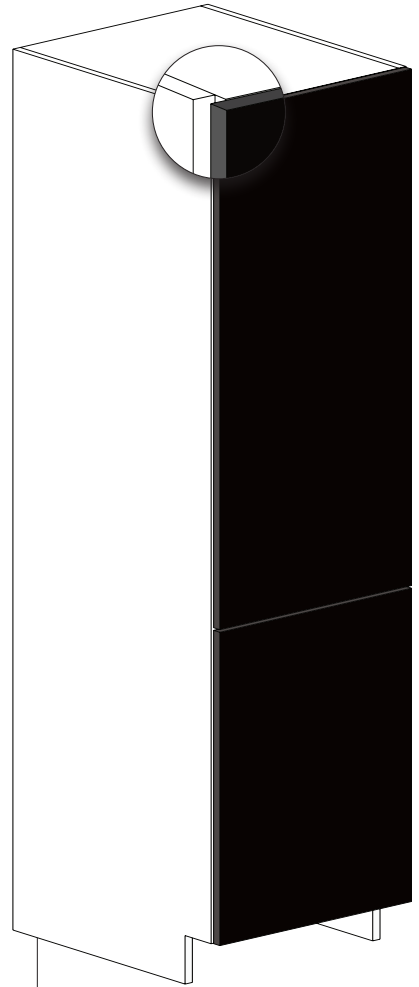

+ \$330/cabinet
