FRENCH CUT ASSEMBLY

What is French cut?

This particular assembly process combines 90° and 45° assembly, giving the appearance of a door with applied moldings. The French cut assembly will be available on several polyester models.

The advantages of French cut polyester doors

- Exclusive models
- Unrivalled assembly precision
- Glass tile doors available Available with glass insert.
- Accessories in stained wood, matching the color of the polyester

STOP In a Laminate project, the requested finished side(s) will also be finished on the inside (both sides of specified panel). The other interior parts of the cabinet will be the same finish as the construction material (ex. white linen furniture board).

STOP Note that European laminate boxes are always finished inside and out. However, it is important to specify the finished sides of your cabinet when necessary.
